

CORPORATE OVERVIEW

Ahtna Diversified Holdings, LLC (ADH) is a holding company for nine subsidiaries within the Ahtna, Inc., (AI) Family of Companies. AI is an Alaska Native Regional Corporation (ANC) and ADH has ANC 8(a) and HUBZone companies with Small Disadvantaged Business contracting capabilities focused on the environmental, construction, and professional services sectors. The common management of these subsidiaries is in accordance with SBA guidelines and associated federal regulations (48 CFR 15.305 – Proposal Evaluation).

ADH has nearly 400 staff in 12 strategic offices throughout the U.S. Ahtna has specialized expertise in executing projects with complex logistics and site conditions such as remote conditions that require chartered planes, helicopters, and barges to move people and materials. Our experienced staff has a proven track record in successfully completing projects in the most challenging environments all while maintaining an excellent safety record with an OSHA Experience Modification Rate of 0.70.

CONSTRUCTION PROGRAM HIGHLIGHTS

The Ahtna team has a strong record of performing construction services for the Federal Government and has been actively addressing time sensitive, and mission critical projects across the country.

Ahtna offers construction for both small and large projects ranging from marine structures to retrofits for homeland security, to general building construction and renovations. Construction services include vertical and horizontal construction, renovations, tenant improvements, demolition, earthwork, paving and concrete work, as well as removal and installation of utilities.

Our construction management teams are laser-focused on exceptional client service and flawless execution.
