

## CORPORATE OVERVIEW

Ahtna Diversified Holdings, LLC (ADH) is a holding company for nine subsidiaries within the Ahtna, Inc., (AI) Family of Companies. AI is an Alaska Native Regional Corporation (ANC) and ADH has ANC 8(a) and HUBZone companies with Small Disadvantaged Business contracting capabilities focused on the environmental, construction, and professional services sectors. The common management of these subsidiaries is in accordance with SBA guidelines and associated federal regulations (48 CFR 15.305 – Proposal Evaluation).

ADH has nearly 400 staff in 12 strategic offices throughout the US. Ahtna specializes in environmental program/project management from initial site investigations through remediation, site closure, and disposal of real property.

## ENVIRONMENTAL PROGRAM HIGHLIGHTS

We work closely with clients and communities to solve complex environmental challenges. Our environmental services help our clients achieve compliance and reduce or eliminate risks while protecting the natural environment.

From environmental documentation to biological surveys and construction monitoring to regulatory compliance permitting, we have earned the respect of planning/regulatory communities and the praise of our clients.

Ahtna self-performs and integrates appropriate specializations for each project site. Our technical, regulatory, and management experts collaborate to identify best-value approaches. In concert with environmental expertise, Ahtna's understanding of and capabilities in operations and engineering enable us to deliver quality and safe execution. Ahtna's culture of safety permeates every task we perform as proven by our low EMR rating.
