

IT AND DATA MANAGEMENT

- Architecture, Platform and System Development
- Contingent and Permanent Staffing Augmentation
- Data Center Consulting, Design and Management
- Data Management and Database Design
- Hardware, Software and License Procurement
- Legacy Software and System Modernization
- Machine Learning and AI Automation
- Managed, Custom Cybersecurity Software Programs
- System Design and Engineering
- Technology Gap Assessment
- Threat Modeling/Intelligence and Vulnerability Assessment
- Telecom Evaluation and Development

PROGRAM MANAGEMENT, IT SUPPORT AND TECHNICAL STAFF AUGMENTATION

- Technical Program and Project Management
- Technology Gap Assessment and IT Support
- Architecture, Platform, and System Development
- Hardware, Software, and License Procurement
- Legacy Software and System Modernization
- Machine Learning and AI Automation
- Contingent and Permanent Staffing Augmentation

RENEWABLE ENERGY SOLUTION DEVELOPMENT

- Asset Management, Maintenance and Training
- Electric Vehicle Charging Station Planning, Procurement, and Installation
- Grid Resiliency Assessment and Planning
- Hydroelectric Plant Construction and Maintenance
- Land-Based and Off-Shore Wind Turbine Development
- Long Duration Energy Storage Solutions
- Mechanical, Structural and Electrical Contracting
- Site Investigation and Feasibility Study
- Utility-Scale Solar Power Development

SYSTEMS ENGINEERING, LOGISTICS AND CYBERSECURITY RISK MANAGEMENT

- System Design and Engineering
- Test and Evaluation
- Weapons Technology and Aviation Solutions
- Modeling and Simulation
- Logistics and Training Solution Development
- Cybersecurity Vulnerability and Security Resiliency Testing
- Security Solution Support
